Mr Chair and members of the committee:

My name is Roxy Arnett. Transit is very important to me. I use transit to accomplish my daily living because I can't drive. I pay my bills and go to activities. I know that Transit helps me and others like me to be independent. Please support HB29. Thank you Roxy Arnett

Because Transportation is  
life sustaining, This  
bill is vital to  
Thousands of us Montanans  
who for no fault of their  
own, cannot and do not  
have their own. Please  
support this very important  
legislation. Thank you.
